Presented By: Tom Nicholls, Executive Director of Enrollment Services

Date Presented: May 23, 2011, Board of Education Meeting

<p>Achievement Overview and Analysis</p>	<p>Analysis of declared student intent shows an upward trend in the number of first-time students who have indicated that their goal is to take classes to transfer to a four-year institution. At the same time we see continued downward trend in the number of students who have declared their intent to complete a certificate or two-year degree. We also see a continued downward trend in undecided students and a correlated drop in the number of students who indicated an intent of simply taking classes.</p>
