Celebrating 20 years of changing lives in Curry County!
For more than 20 years, Curry County residents have been pursuing their education and dreams at Southwestern Oregon Community College (SWOCC). Through the work and dedication of many people, Curry County was annexed into the college district by voters in May of 1995. What does this mean to the county? It is difficult to measure how access to a college education changes individual lives and the fabric of communities. Since joining the college district, 229 Curry residents have earned 214 two-year degrees and 61 certificates. Of the two-year degrees, 136 were transferable to four year colleges allowing many students to earn Bachelor’s degrees. “We’re helping people in Curry County reach for their dreams, and when they achieve them, many of them stay in Curry making it a better place,” said Janet Pretti, Dean of the Curry Campus.

Where are they now?
The path to a college degree is as unique as the student who earns the degree. Two examples of graduates that are now giving back to their communities are Cherie White in Port Orford and Tamie Kaufman in Gold Beach.

As a fourth-generation Curry County resident, Cherie White had a desire to make a living here, but like many people, she worked two, if not three jobs, to patch together a living. She took her first SWOCC class in the early 80’s, but after 13 years of being self-employed she realized she needed more education to be more employable. Through her volunteer work for Curry County Search and Rescue and Civil Air Patrol, she knew she wanted to focus her vocation on something that could help people better themselves. Cherie White earned an AAOT and an AS, Criminal Justice in 1996. In 1997, she was hired as the North Curry Service Center Receptionist/Resource and Referral Specialist. The North Curry Service Center, or the Blue Building to locals, evolved from the efforts of community members, county, state, and non-profit agencies to share space, costs, and staff. This one-stop center has gone through several transformations over the years in both leadership and in the services provided through the center, but Cherie White remains the one constant. The Center is the known as the place you can get help, in large part because it is where Cherie puts her passion for helping people, and her expansive knowledge about non-profit, county and state services to use bettering the lives of north Curry County residents. Tamie Kaufman started her college career right out of high school attending one year at the University of Oregon. It was not a good experience and she gave up on college. She returned to Gold Beach in 1992 and was on the original strategic planning committee that began the application process for annexation into the college district. Tamie returned to college choosing Southwestern in 1999 and discovered a new world of learning. “It was a wonderful experience taking online and onsite courses part time while working full time. Southwestern’s focus was on my success as a student and the staff was very encouraging that I could succeed.” She completed her associate’s degree in 2002 and took a “break” before finishing her bachelor’s degree. That break ended in fall 2014 and she is on track to graduate in fall 2015 with a Bachelor of Science in Philosophy, Politics and Economics, three minors that make a major. “It is exciting to finally complete this degree which will help me be a better community leader.” Tamie has served the community many years in a variety of roles. Legacy of Learning CONTINUED . . .

Currently serves on the Gold Beach City Council and works part-time as a property manager while completing her degree.

Becoming a teacher has been the goal of many students. Some got their start at SWOCC, others picked up credits in undergraduate courses before transferring on to Eastern Oregon University’s Elementary Education CUESTE program in Coos Bay or other universities. Several now teach children in local schools. Christal Miller, Ria Shanon-Smith, Ken Olsen, Terry Brueckner, Molly Wallace, and Victoria Snow teach for the Brookings-Harbor School District. Shelley Edwards teaches for the Central Curry School District. Georgia Weinblatt teaches for the Port Orford/Langlois School District. Two graduates have gone on to be South Coast Head Start Head Teachers: Judy Miles in Port Orford and Krista Smith in Gold Beach. Their goals became real because they had access to college.

Twenty-five residents have earned degrees in nursing since Curry County joined the college district, with four more on track to graduate in June. Isaac Hodges and Kristi Testa were the first Curry nursing students to have their lectures delivered using video conferencing technology. Born and raised in Brookings, Kristi worked as a CNA at Curry Good Samaritan Center prior to, and during her nursing studies, and returned to work there as Resident Care Manager after graduating. Isaac also grew up in Brookings. He continued his education, earning a Bachelor of Science in Nursing from Oregon Health Sciences University in 2013. He works as an RN in the Emergency Department at Curry General and is also the Clinical Manager at the Rush Surgery Center in Brookings.

If you dream of college, make a plan. Fill out an Application for Admission, take the college assessment and file for financial aid. Make an appointment with an advisor to discuss your educational goals.

The Basic Nursing Assistant application is available at local college offices or online at: www.socc.edu/nursing (scroll to bottom of page)

EXPLORE VULCAN LAKE IN THE KALMIOPSIS WILDERNESS

Join Maggie McHugh, retired Forest Service geologist, and Al Collinet, enthusiastic amateur botanist, on an exploration of the starkly serpentine landscape near Vulcan Lake in the Kalmiopsis Wilderness and search for the Kalmiopsis flower in bloom. Maggie will explain the ultramafic rocks and the unique characteristics of the area including the Gardner Mine. Rocks exposed at Vulcan Lake represent materials usually found at depths greater than 50 km in the upper mantle of the earth. For an in-depth look at the geology of the area, sign up for Maggie’s geology lecture on Thursday June 4th. Al will be armed with a copy of the Forest Service Plant List for the Kalmiopsis Wilderness. Come and find out about this beginners key to the conifers of our area.

The hike is a four mile loop with a 1000 feet elevation gain. Some sections are on rocks so a walking stick and gloves are recommended. Wear sturdy hiking shoes. bring a lunch and water. Be prepared for the weather. Travel time to the trailhead is about 2 hours. High clearance vehicles are required. Hikers will meet at the Southwestern Oregon Community College in Brookings at 8:30am. For more information on the hike, contact Al Collinet at 541-412-8444.

This lecture and hike can be taken separately, or combined to meet individual needs. There is no cost for the Saturday hike. There is a charge of $15.00 for the Thursday lecture at the Curry Campus in Brookings. See the map on the inside cover for the location of the Curry Campus.
