Procedure for Logging on to SWOCC wireless network with Windows 7

1) In the bottom right corner of your desktop in the Task Bar will be the wireless network icon, right click on it to open the menu.

2) Select Open Network and Sharing Center

3) In the Network and Sharing Center select Connect or disconnect

4) Select Student as the network you wish to connect to.
5) Click on the **Connect** button

![Click on the Connect button](image)

6) Once you are connected to the network, open your web browser. You should be redirected to the Authentication page. You will need to login with your Student ID number and either your 6 or 8 digit date of birth as your password.

7) At this point, if this is the first time connecting to the Student network, you’ll be asked to download and install Safe Connect (a program that verifies you have an up-to-date antivirus program on your computer). For the download and install steps, please see the **Installing the Safe Connect Policy Key** tutorial.
