iPad and iPhone/Tablet/Smartphone wireless connection instructions

1) Find your **Settings App** on your device and open it. Examples of the app’s icon on different devices are shown below.

2) In the **Settings App**, go to your **Wireless** options.

3) Verify that your **wireless is on**, and in the list of available networks, select the **Student** network and then **Connect**.

4) Close out of your **Settings App**, and open up your **Internet App**. You will be redirected to SWOCC’s Authentication page.
5) On the Authentication page you will need to enter in your **Student ID** number, as well as your **8 digit date-of-birth** for the password, and then click the **Submit** button.

6) You are now connected to SOCC’s wireless internet.
