Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of Southwestern Oregon Community College Foundation, which comprise the statement of financial position as of June 30, 2022, and the related statements of activities, functional expenses, and cash flows for the year then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Southwestern Oregon Community College Foundation, as of June 30, 2022, and the changes in its net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Southwestern Oregon Community College Foundation and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Southwestern Oregon Community College Foundation's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Southwestern Oregon Community College Foundation's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Southwestern Oregon Community College Foundation's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Summarized Comparative Information

The 2021 financial statements of Southwestern Oregon Community College Foundation were audited by other auditors whose report dated September 16, 2021, expressed an unmodified opinion on those statements.

SOUTHWESTERN OREGON COMMUNITY COLLEGE FOUNDATION
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2022
(WITH COMPARATIVE TOTALS AS OF JUNE 30, 2021)

NOTE 1 ORGANIZATION

Southwestern Oregon Community College Foundation (the Foundation) is an Oregon nonprofit corporation organized in 1962 exclusively for the purpose of supporting higher education in connection with Southwestern Oregon Community College (the College). The Foundation's mission is to support the College by improving people's lives socially, culturally, economically, and educationally through friend-raising and fundraising. Fundraising efforts result in the Foundation receiving gifts and pledges for the benefit of the College, including such gifts as endowment gifts to be invested in perpetuity, remainder interests in charitable remainder trusts, gift annuities, bequests, estate gifts, and other gifts. The Foundation is managed by a team of professionals and controlled by a volunteer board of directors.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies followed by the Foundation are described below to enhance the usefulness of the financial statements to the reader.

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Basis of Presentation

Net assets, revenues, gains, and losses are presented based on the existence or absence of donor-imposed restrictions. Accordingly, the Foundation's net assets and changes therein are classified and reported as follows:

Net Assets Without Donor Restrictions – Net assets available for use in general operations and not subject to donor-imposed stipulations. From time to time, the Foundation's board of directors may designate a portion of these net assets for particular purposes and objectives.

Net Assets With Donor Restrictions – Net assets subject to donor-imposed stipulations that will be met either by actions of the Foundation and/or the passage of time. These balances represent the unexpended portion of donor-restricted contributions and investment return to be used for specific programs and activities as directed by the donor. The balances also include net assets subject to donor-imposed stipulations that they be maintained permanently by the Foundation (e.g., endowment funds). Generally, the donors of these assets permit the Foundation to use all or part of the income earned on related investments for general or specific purposes.

SOUTHWESTERN OREGON COMMUNITY COLLEGE FOUNDATION
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2022
(WITH COMPARATIVE TOTALS AS OF JUNE 30, 2021)

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Basis of Presentation (Continued)

Expenses are reported as decreases in net assets without donor restrictions. Gains and losses on investments and other assets or liabilities are also reported as increases or decreases in net assets without donor restrictions unless their use is restricted by explicit donor stipulation or by law. Expirations of donor-imposed restrictions on net assets (i.e., the donor-stipulated purpose has been fulfilled and/or the stipulated time period has elapsed) are reported as net assets released from restrictions.

Use of Estimates

The preparation of the financial statements in conformity with GAAP requires that management make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. In the opinion of management, such differences, if any, would not be significant.

Cash Equivalents

For purposes of the financial statements, the Foundation considers all liquid investments having initial maturities of three months or less to be cash equivalents. Cash and cash equivalents held as part of the Foundation's investment portfolio, and where management's intention is to use the cash to acquire investments to be held long-term, are classified as investments.

Investments

Investments in marketable securities with readily determinable fair values and all investments in debt securities are carried at their fair value in the statement of financial position. Whenever available, quotations from organized securities exchanges are used as the basis for fair value.

Net investment return, which includes both current yield (interest and dividend income) and net change in the fair value of investments, is reported in the statement of activities, net of investment expenses. Interest income is accrued as earned. All security transactions are recorded on a trade date basis.

The Foundation has some exposure to investment risks, including interest rate, market, and credit risks, for both marketable and nonmarketable securities. Due to the level of risk exposure, it is possible that near-term valuation changes for investment securities may occur to an extent that could materially affect the amounts reported in the accompanying financial statements.

(WITH COMPARATIVE TOTALS AS OF JUNE 30, 2021)

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Capital Assets and Depreciation

Generally, furniture and equipment in excess of \$5,000 are capitalized and reported at cost when purchased, and initially at fair market value when acquired by gift. Depreciation is provided on a straight-line basis over the estimated useful lives of the respective assets. At June 30, 2022, the Foundation had equipment of \$10,350 to be used in the future and as such no depreciation was recorded for the year ended June 30, 2022.

Contributions

Contributions, which include unconditional promises to give (pledges), are recognized as revenues in the period the donor's commitment is received. Conditional promises to give are not recognized until they become unconditional, that is when the conditions on which they depend are substantially met. Contributions of assets other than cash are recorded at their estimated fair value.

Contributions and grants received with donor stipulations that limit the use of the donated assets are reported as net assets with donor restrictions.

Unconditional promises to give with payments due in future periods, are recorded as increases in net assets with donor restrictions at the estimated present value of future cash flows using credit adjusted discount rates which articulate to the collection period of the respective pledge. Such discount rates are not subsequently revised. Amortization of the discount is recorded as additional contribution revenue in subsequent years in the appropriate net asset class.

Contributions and grants receivable are reported net of an allowance for estimated uncollectible promises. Promises to give are written off when deemed uncollectible.

When a donor restriction expires, that is, when a time restriction ends or a purpose restriction is fulfilled, net assets with donor restrictions are reclassified to net assets without donor restrictions and are reported in the statement of activities as net assets released from restrictions.

Contributions of capital assets without donor stipulations concerning the use of such long-lived assets are reported as revenues without donor restrictions. Contributions of cash or other assets restricted to the acquisition of capital assets with such donor stipulations are reported as net assets with donor restrictions, the restrictions are considered to be released at the time of acquisition of such long-lived assets, in accordance with donor intent.

In-Kind Contributions

A number of unpaid volunteers have made significant contributions of their time to develop and implement the Foundation's programs. Under GAAP, significant services received which create or enhance a nonfinancial asset or require specialized skills that the Foundation would have purchased if not donated are recognized in the statement of activities. During the year ended June 30, 2022, the Foundation recorded \$66,748 in-kind services.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

In-Kind Contributions (Continued)

In-kind contributions of land, buildings, equipment, and other materials are recorded when there is an objective basis upon which to value these contributions and where the contributions are an essential part of the Foundation's activities.

Outstanding Legacies

The Foundation is the beneficiary under various wills and trust agreements, the total realizable amounts of which are not presently determinable. The Foundation's share of such bequests is recorded when the probate court has declared the testamentary instrument valid and the proceeds are measurable.

College Support

College support is accrued when awarded by the Foundation and unconditional. College support is provided from available income and principal in accordance with restrictions imposed by donors.

Benefits Provided to Donors at Special Events

The Foundation conducts special fundraising events in which a portion of the gross proceeds paid by the participants represents payment for the direct cost of the benefits received by participants at the event. Unless a verifiable, objective mean exists to demonstrate otherwise, the fair value of meals and entertainment provided at special events is measured at the actual cost to the organization.

Concentrations of Credit Risk

The Foundation's financial instruments consist primarily of cash and cash equivalents and investments, which may subject the Foundation to concentrations of credit risk as, from time to time, for example, cash balances may exceed amounts insured by the Federal Deposit Insurance Corporation (FDIC). In addition, the market value of securities is dependent on the ability of the issuer to honor its contractual commitments, and the investments are subject to changes in market values.

All checking and savings accounts, money market deposit accounts, and certificates of deposit are insured by the FDIC for up to \$250,000 for each depositor, for each insured bank, for each account ownership category.

Certain receivables may also, from time to time, subject the Foundation to concentrations of credit risk. To minimize its exposure to significant losses from customer or donor insolvencies, the organization's management evaluates the financial condition of its customers and donors, and monitors concentrations of credit risk arising from similar geographic regions, activities, or economic characteristics. When necessary, receivables are reported net of an allowance for uncollectible accounts.

Advertising Expenses

Advertising costs are charged to expenses as they are incurred.

Subsequent Events

Subsequent events have been evaluated by management through REPORT DATE, which is the date the financial statements were available to be issued.

Income Taxes

The Foundation is exempt from federal and state income taxes under Section 501(c)(3) of the Internal Revenue Code (IRC) and comparable state law, and derives its public charity status as an organization described in Sections 170(b)(1)(A)(vi) and 509(A)(1) of the IRC.

Interpretation of Relevant Law

The Uniform Prudent Management of Institutional Funds Act (UPMIFA) governs Oregon charitable institutions with respect to the management, investment, and expenditure of donor-restricted endowment funds.

The Foundation's board of directors has interpreted Oregon's adoption of UPMIFA as requiring the Foundation to adopt investment and spending policies that are designed to preserve the fair value of the original gift as of the date of gift, absent explicit donor stipulations to the contrary. Although the Foundation has a long-term fiduciary duty to the donor (and to others) for a fund of perpetual duration, the preservation of the endowment's purchasing power is only one of several factors that are considered in managing and investing these funds. Furthermore, in accordance with UPMIFA, a portion of the endowment's original gift may be appropriated for expenditure in support of the restricted purposes of the endowment if this is consistent with a spending policy that otherwise satisfies the requisite standard of prudence under UPMIFA.

As a result of this interpretation, the Foundation classifies as endowment principal (1) the original value of endowment gifts, (2) subsequent gifts to the endowment, and (3) accumulations to the endowment made pursuant to the direction of the applicable donor gift instrument.

SOUTHWESTERN OREGON COMMUNITY COLLEGE FOUNDATION
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2022
(WITH COMPARATIVE TOTALS AS OF JUNE 30, 2021)

NOTE 6 ENDOWMENT (CONTINUED)

Interpretation of Relevant Law (Continued)

Net earnings (realized and unrealized) on the investment of endowment assets are classified as accumulated endowment return until those amounts are appropriated for expenditure by the Foundation in a manner consistent with the standard of prudence prescribed by UPMIFA and until expended in a manner consistent with the purpose or time restrictions, if any, imposed by the donor. Any investment return classified as endowment principal represents only those amounts required to be retained permanently as a result of explicit donor stipulations.

In the absence of donor stipulations or law to the contrary, losses or appropriations of a donor-restricted endowment reduce accumulated endowment return to the extent that donor-imposed restrictions on net appreciation of the fund have not been satisfied before the loss or appropriation occurs. Any remaining loss or appropriation reduces endowment principal.

Endowments With Deficiencies

From time to time, the fair value of assets associated with individual donor-restricted endowments may fall below the level that the donor or UPMIFA requires the Foundation to retain as a fund of perpetual duration. In addition, the Foundation's board of directors interprets UPMIFA to permit spending from underwater endowments in accordance with prudent measures required under law, and the Foundation has a policy that permits spending from underwater endowment funds depending on the degree to which the fund is underwater.

Investment and Spending Policies

In accordance with UPMIFA, the Foundation's board of directors has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to the programs and operations supported by its endowment, while also seeking to maintain the long-term purchasing power of the endowment assets. Therefore, the board of directors considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

- The duration and preservation of the fund;
- The purpose of the Foundation and the fund;
- General economic conditions;
- The possible effect of inflation and deflation;
- The expected total return from income and the appreciation of investments;
- Other resources of the Foundation; and
- The investment policies of the Foundation.

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2022
(WITH COMPARATIVE TOTALS AS OF JUNE 30, 2021)

NOTE 6 ENDOWMENT (CONTINUED)

Investment and Spending Policies (Continued)

To meet its objectives, the Foundation's policies limit spending to an amount equal to between 3% and 6% of the average fair market value of the fund investments (computed over a three-year moving average, measured at March 31 prior to the beginning of the fiscal year). Distributions are generally made annually in July. Actual endowment return earned in excess of distributions under this policy is reinvested as part of the Foundation's management of endowment. For years when actual endowment return is less than distribution under the policy, the shortfall is intended to be covered by realized and unrealized returns from prior years.

NOTE 7 NET ASSETS RELEASED FROM RESTRICTIONS

During the year ended June 30, 2022, the Foundation incurred various expenses in satisfaction of the restricted purposes specified by donors, or otherwise satisfied the restrictions by the occurrence of other events. Accordingly, net assets released from restrictions are summarized in the following table:

Satisfaction of Donor Restrictions as to	
Purpose and/or Time	\$ 311,174
Endowment Management Fee (Note 6)	48,201
Total	\$ 359,375

NOTE 8 ADMINISTRATIVE ASSESSMENT

The Foundation makes an administrative assessment of 1.0% annually based on a three-year rolling average of the fair value of endowment assets at March 31. This assessment for the year ended June 30, 2022 totaled \$48,201.

NOTE 9 COLLEGE SUPPORT AND EXPENSES

The costs of providing the various programs and activities of the Foundation have been summarized on a functional basis in the statement of activities. Accordingly, certain costs have been allocated among the programs and supporting services benefited, based on estimates of the time expended in each area.

Academic program support pertains to activities initiated and conducted by departments of the College, in whole or in part. Administrative expenses pertain to the general operating activities of the Foundation. Certain categories of expenses that are attributable to one or more program or supporting functions of the organization, and therefore, require allocation on a reasonable basis that is consistently applied. Those expenses include payroll costs and office expense.

NOTE 9 COLLEGE SUPPORT AND EXPENSES (CONTINUED)

The Foundation and the College have entered into an agreement that sets forth the manner in which the College and Foundation provide support to each other. For example, the College provides services to the Foundation that include the free use of administrative office facilities, telephone, utilities, and certain other operating costs attributed to the Foundation. These costs are not included in the accompanying financial statements due to the difficulty of accurately determining their value.

The College agreed to fully fund the Foundation's Executive Director salary and benefits indefinitely or until such time both parties mutually agree to renegotiate. The value of such services totaling \$66,748 for the year ended June 30, 2022 are reported as in-kind contributions in the accompanying statement of activities.

For its part, the Foundation's support of the College includes, but is not limited to, receiving, investing, and administering the funds of, or funds held for the benefit of, the College; providing various financial and related services, including receiving, acknowledging, providing receipts for, and processing all gifts; investing and managing all funds received on behalf of the College; administering endowment and funds held for the benefit of the College; disbursing funds in accordance with donors' wishes; and providing database management support.

NOTE 11 LIQUIDITY AND AVAILABILITY OF FINANCIAL ASSETS (CONTINUED)

As part of its liquidity management, the Foundation has a policy to structure its financial assets to be available as its general expenditures, liabilities, and other obligations become due.

In addition, the Foundation holds quasi-endowment funds totaling \$1,315,419 (see Notes 4 and 6). Although the Foundation does not intend to spend from its quasi-endowment other than amounts appropriated for general expenditure as part of its annual budget approval and appropriation process, amount from its quasi-endowment could be made available if necessary.

NOTE 11 FAIR VALUE MEASUREMENTS

Included in the accompanying financial statements are certain financial instruments (primarily investments) carried at fair value.

The fair value of an asset is the amount at which that asset could be bought or sold in a current transaction between willing parties, that is, other than in a forced or liquidation sale; similarly, the fair value of a liability is the amount at which the liability could be transferred in a current transaction between willing parties. Fair values are based on quoted market prices when available.

When market prices are not available, fair value is generally estimated using discounted cash flow analyses, incorporating current market inputs for similar financial instruments with comparable terms and credit quality.

All financial assets carried at fair value have been classified, for disclosure purposes, based on a hierarchy defined under GAAP. The hierarchy gives the highest ranking to fair values determined using unadjusted quoted prices in active markets for identical assets (Level 1) and the lowest ranking to fair values determined using methodologies and models with unobservable inputs (Level 3).

At June 30, 2022, the Foundation's investments are measured at fair value on a recurring basis using quoted prices in active markets for identical assets. All investments at June 30, 2022 were considered Level 1 Investments. See Note 4.
